

Wanderlust — Payments, Cancellations & Refunds

Pricing

- Listing prices are set by hosts and displayed per night (or per stay, where applicable) on the listing page.
- The total shown at booking includes the base price for your selected dates; any applicable service fees are itemized in the booking summary before you confirm.

Payment

- Payment is collected at the time of booking confirmation.
- Wanderlust does not store your full payment card details directly — payments are processed through a secure payment flow.
- If a payment fails, no booking is created; you can retry with the same or a different payment method.

Cancellation Policy

- Cancellations made **more than 7 days** before check-in are eligible for a full refund.
- Cancellations made **within 7 days** of check-in may be subject to a partial refund or cancellation fee, depending on the host's listing policy (shown on the listing page at time of booking).
- No-shows are generally non-refundable.

How to Cancel a Booking

1. Go to your Dashboard and select the booking you want to cancel.
2. Click "Cancel Booking" and confirm.
3. You'll see the applicable refund amount (if any) before confirming the cancellation.

Refunds

- Approved refunds are issued back to the original payment method.
- Refund processing may take a few business days to reflect, depending on your bank or payment provider.

Disputes & Issues with a Stay

- If a listing significantly differs from its description, or you experience an issue during your stay, contact support with your booking reference for review.
- Do not attempt to resolve payment disputes directly with the host outside the platform — this ensures you're protected under Wanderlust's policies.

Common Issues

Issue	Likely Cause	Resolution
Payment failed but I was charged	Temporary processing delay	Wait a few minutes and check booking status; contact support if charge persists without a booking
Refund not received yet	Bank processing time	Allow a few business days; contact support if delayed beyond that
Can't find cancel option	Booking may already be within a non-cancellable window, or already completed	Check booking status in Dashboard
